|-------------------|-------------------------------|
| VENUE: | Nationwide training locations |
| NO. OF TRAINEES: | up to 3 |
| TRAINING DETAILS: | HIAB Refresher ALLMI |
| EVENT DURATION: | 1 day |

DETAIL

Our ALLMI refresher course is perfect for experienced HIAB operators who need to renew their certification. If you have already achieved your HIAB licence but it was longer than five years ago, then this course will refresh your skills and knowledge and help you pass the test.

The training day starts at 09:00 and finishes at 16:30 with a maximum of three students to one instructor-trainee ratio. This will enable the instructor with enough time to properly instruct operators on different types of lifts and to instruct students on the theory.

The ALLMI Operator course consists of 15 modules, The course culminates in a written and practical examination. ALLMI is notified (by our team) of all courses in advance of the training taking place. The assessment process is set by ALLMI and administered by our instructor. It consists of two theoretical assessments and one practical. The theoretical assessments consist of a set of multiple choice and 'open' questions, as well as questions which relate specifically to the crane attachment being used. The practical assessment is designed to identify whether the candidate has the appropriate practical skills to operate a lorry loader safely and efficiently.

WHO IS THIS FOR?

Upon successful completion of the course, every candidate will:

Receive an identity card and certificate, which are valid for five years, after which time a refresher course and assessment needs to be completed.

Be registered on the ALLMI Operator database.

Receive the ALLMI Operator's manual, which is used as a reference guide throughout their career.

The identity card and certificate will show the categories for which the operator is licenced.

ALLMI Operator training is the UK's only lorry loader training programme to be commended by the Health & Safety Executive. The programme is also recognised by Build UK and is referenced within the organisation's official "Training Standard".

Receive full and detailed on-going status reports will be produced for the trainee & Manager.
